

If you want to independently design and print your magnet images, please note the following:

The magnets are round. The top (visible) part of the magnet has a diameter of 2.063 inches.

You must leave a margin of approximately 0.3 inches on all sides so the button machine can cut it properly. If you color this margin, the color will be visible on the sides of the magnet.

You must **print your image on normal printer paper**, NOT a thick photo paper.

Our photo examples were made using the free design website Canva, but you can use any program that allows you to format and print photos in this format.

Paper Circle Cut Size:
2.625" (round)

Photo (Magnet Top) Size:
2.063" (round)
